**UNITED-STATED PATENT AND TRADEMARK OFFICE**

Application Number: 10/749,090  
Applicant(s): Gionet Camie Dennis Sr.  
Filing date: 12/31/2003  
Title: Boston Gauge

Group Art Unit: 2859  
Examiner: Yaritza, Guadalupe, McCall

**Response to Office Action**

**Amendment**

In response to the Examiner's Action mailed on 04/08/2005, please amend the above identified application as follows:

Please amend paragraph 0011, starting on page 4 of the, Detailed Description of the Invention, as follows:

Claim 1 (currently amended)

0011 (~~The upper 12 and lower 13 bodies, sandwich together with button head cap screws, to hold the dial indicator 10, in its proper place. The pivoting finger 15, will pivot on a dowel pin 14, which will be press fit into the lower body 13, and the fixed finger 16, will also be fixed to the lower body 13, and press fit into place with two dowel pins 14.~~  
~~The dial indicator 10, has a built in spring, that will enable its tip 17, to keep constant contact and pressure on the pivoting finger 15, therefore alleviating the need for any springs in, or on the Boston Gauge.)~~
